

MARLIN · 60-SECOND FILM

New structure

Detect. Isolate. Surveil.

Proposal for approval · built from your audio note of 13 Nov

What you asked for

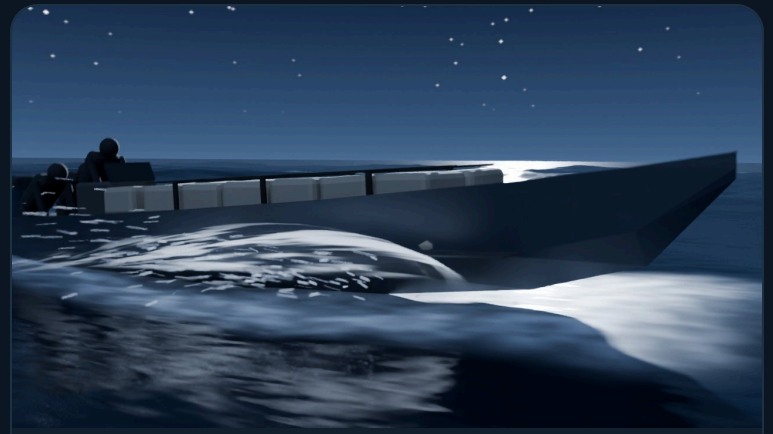

1

~~Cover. Sprint. Persist.~~ → **Detect. Isolate. Surveil.**

New three words

2

No buzz at the end

3 Hook first: the threat

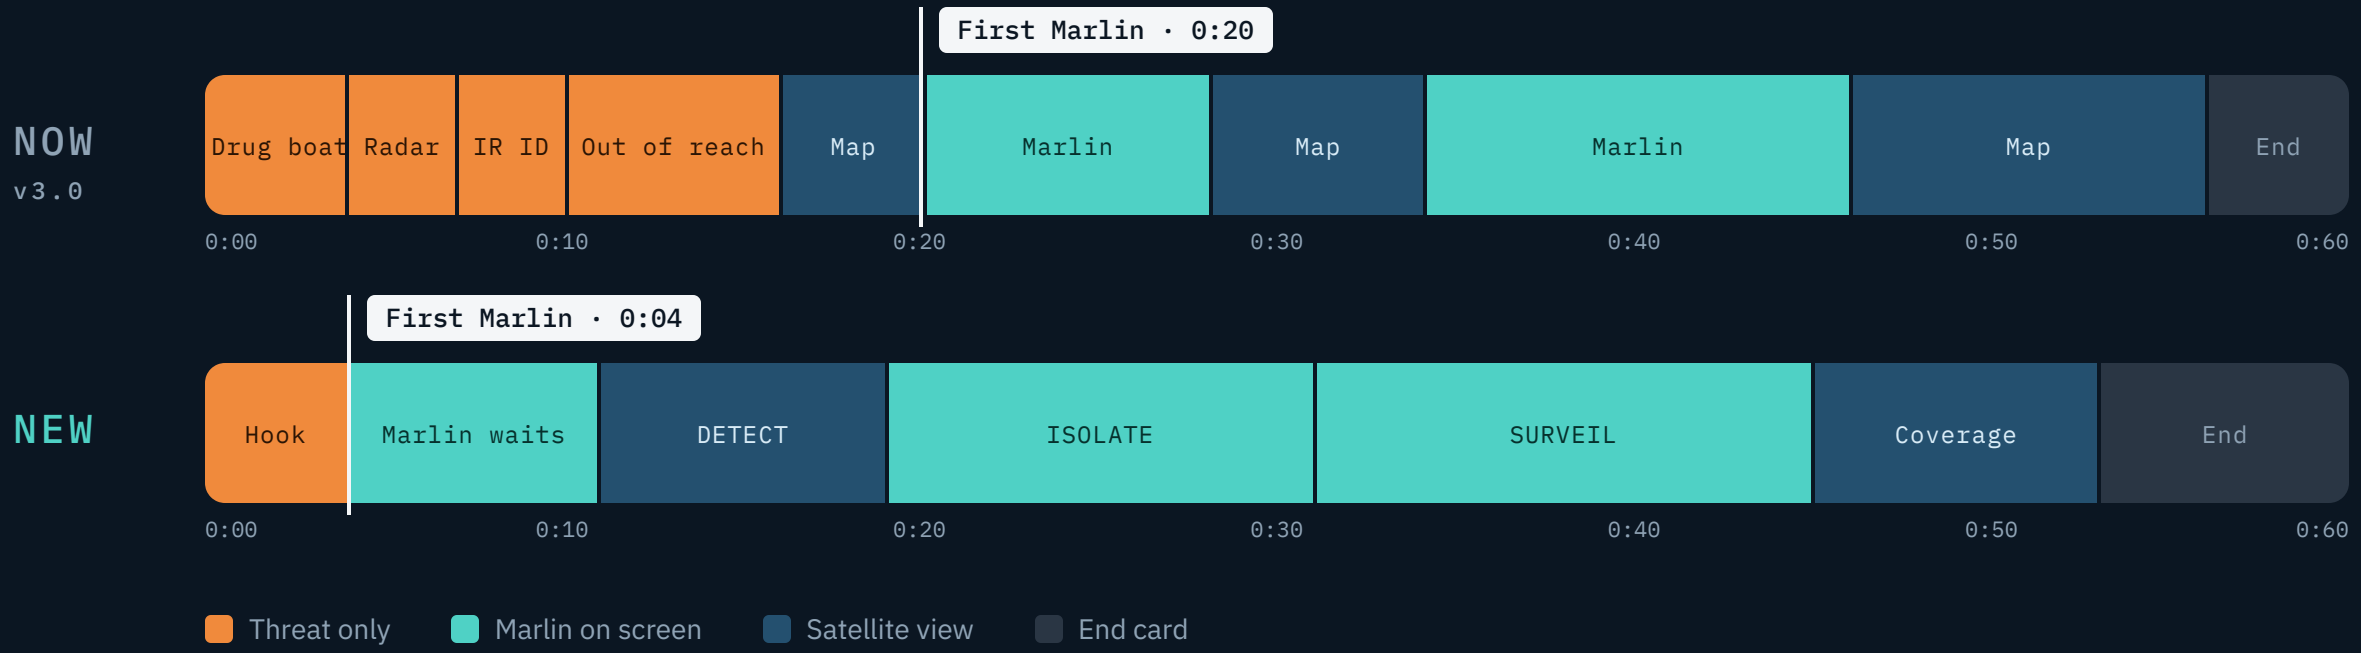

4 Then Marlin: the apex predator

5 Multiple Marlins vectoring in

Marlin arrives at 0:04, not 0:20

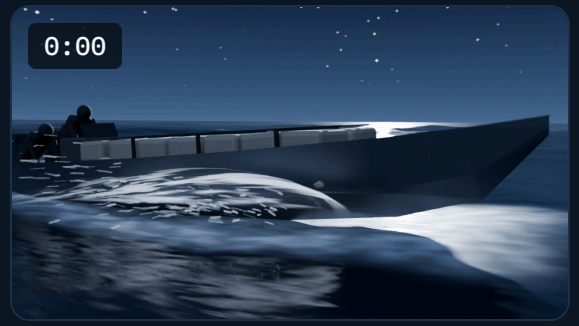

20 s
of drug boat before Marlin, now

→

4 s
in the new cut

The new film in seven beats

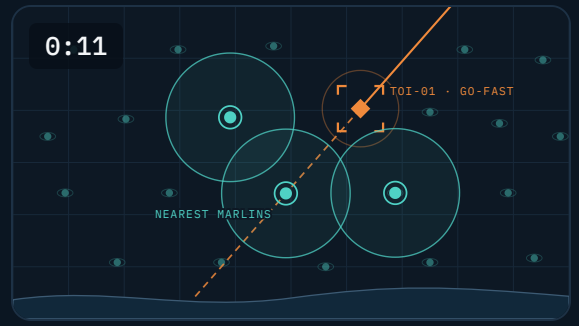

Hook

“A boat is running dark for the coast.”

Marlin waits

“Marlin is already out there. Waiting. Always ready.”

01 · Detect

“It detects the contact,”

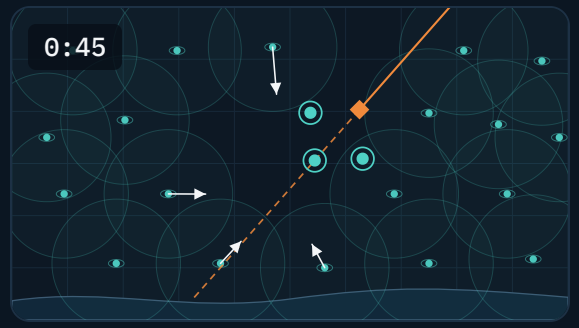

02 · Isolate

“vectors the nearest Marlins in… and isolates it,”

03 · Surveil

“then stays on it until partners arrive.”

Coverage holds

“Detect. Isolate. Surveil.”

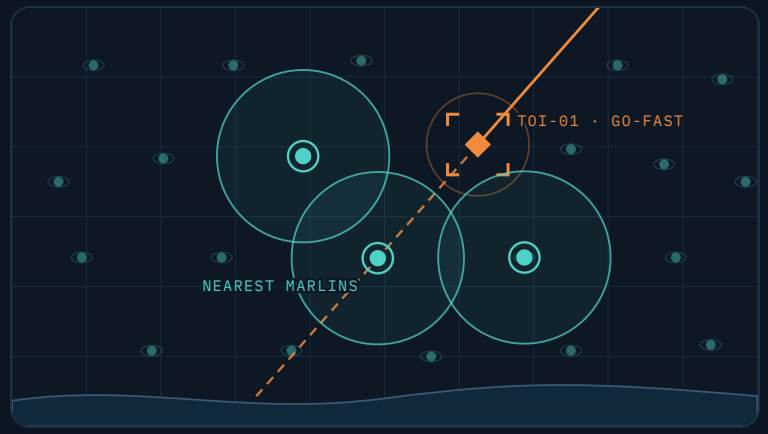

End card

“Marlin.”

Three words, each one a picture

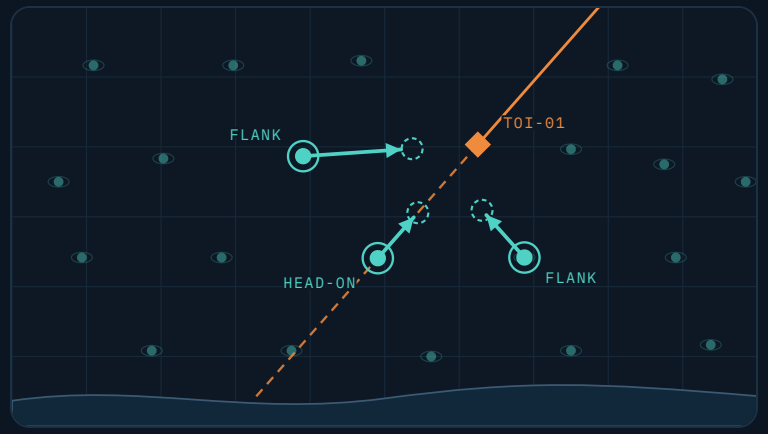

01 DETECT

Contact tagged. Nearest Marlins light up.

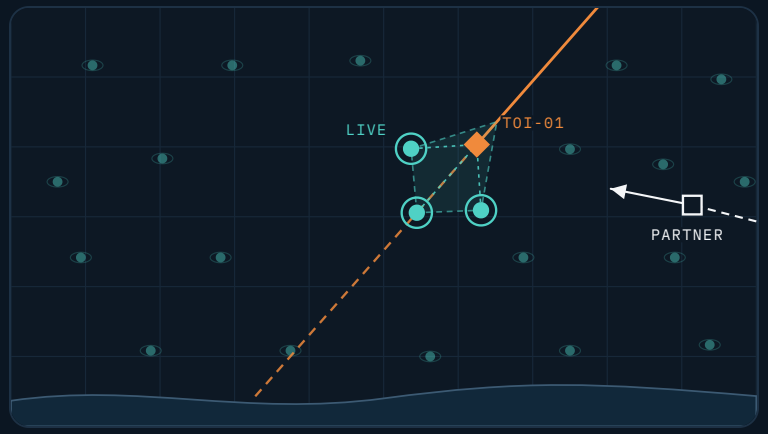

02 ISOLATE

Several Marlins vector in and box it, at standoff.

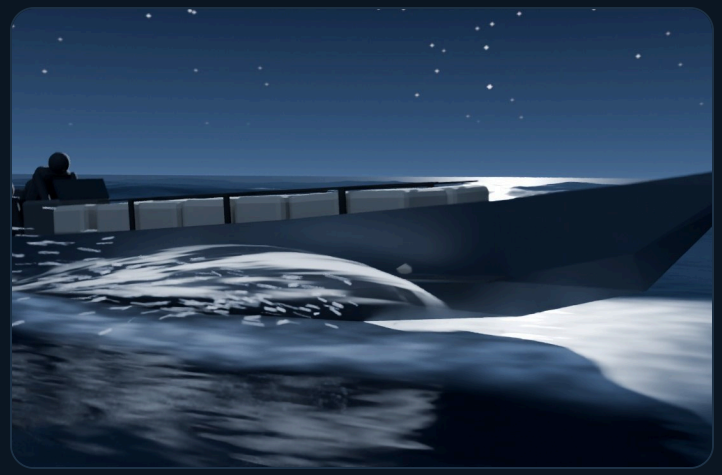

03 SURVEIL

Eyes on. Hold until partners make the stop.

Why the apex predator works

THREAT

The question: who deals with this?

→

PREDATOR

The answer is already there. Calm. Ready.

→

THE TRAP CLOSES

Speed reads as a choice, not a scramble.

> **One rule:** the predator is in its patience and posture. Marlin watches and tracks; partners make the stop.

Change of wording

TAGLINE

~~Cover. Sprint. Persist.~~

↓

Detect. Isolate. Surveil.

ON SCREEN

~~01 CLOSE~~

~~02 EYES ON~~

~~03 SURVEIL~~

↓

01 DETECT

02 ISOLATE

03 SURVEIL

ENDING

~~engine buzz~~ → music resolves, clean

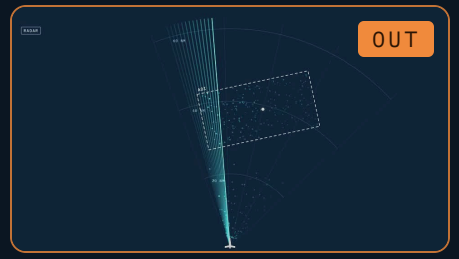

NARRATION was 20 words from 0:23 · now about 44 from 0:01

0:01	A boat is running dark for the coast.
0:05	Marlin is already out there. Waiting. Always ready.
0:12	It detects the contact,
0:20	vectors the nearest Marlins in, fifty miles in thirty minutes,* and isolates it,
0:36	then stays on it until partners arrive.
0:49	Detect. Isolate. Surveil.
0:56	Marlin.

*“Design target” stays on screen with this line.
